Global Internal Audit Standards
Tidbits

According to Standard 9.2 Internal Audit Strategy, the Chief Audit Executive must create and deploy a strategic plan. This plan must support the entity's objectives and align with the audit committee's and management's expectations.

The plan's tactics must achieve a long-term or overall objective and have a vision, a strategic objective, and initiatives. All of these must help guide the internal audit function toward fulfilling the internal audit mandate. Here are some tidbits for your strategic plan:

- Implement continuous monitoring;
- Develop a fraud detection program; and/or
- Conduct an audit risk assessment at significant subsidiaries

Have fun implementing or updating your IA strategic plan soon!
